

26TH ANNUAL LYNN SAGE BREAST CANCER SYMPOSIUM 2024

Northwestern
Medicine

ROBERT H. LURIE
COMPREHENSIVE CANCER CENTER
OF NORTHWESTERN UNIVERSITY

Translational Research Session

Wednesday, October 23, 2024 | 4:00 p.m. - 6:00 p.m.

Beyond the Horizon: Exploring the Frontiers of Breast Cancer Therapy from Bench to Bedside

Please join us for a special non-cme session just prior to the Lynn Sage Breast Cancer Symposium.

KEYNOTE SPEAKER

Carlos Arteaga, MD
UT Southwest Simmons
Comprehensive Cancer
Center

Mechanisms of Resistance to CDK4/6 Inhibitors in ER+ Breast Cancer

The pre-symposium Translational Research Session is open to all registrants of the Lynn Sage Breast Cancer Symposium. Register for the symposium at lynnsagebreastcancer.org. Your symposium confirmation email will provide a link to sign up for this complimentary non-cme session.

The Translational Research Session

brings both physician scientists and basic scientists in translational breast cancer research, fosters interdisciplinary collaborations cross institutions, inspires next generation therapeutic development and liquid biopsy biomarker analyses, and strives to overcome therapy resistance for maximal patient benefits.

OTHER SESSIONS

Adoptive Cell Transfer in Patients with Metastatic Breast Cancer

Stephanie L. Goff, MD

Center for Cancer Research, National Cancer Institute

Triple Negative Breast Cancer Immunotherapy by MHC II CD4 TCR-T Cells

Rongfu Wang, PhD

University of Southern California

USP22 Inhibitors as Dual Treg-Inhibiting and Onco-Targeting Therapeutics in Breast Cancer

Deyu Fang, MD, PhD

Lurie Cancer Center

Circulating Tumor Cell-Facilitated Monitoring and Antibody Targeting of Metastatic Breast Cancer

Huiping Liu, MD, PhD

Lurie Cancer Center
